

## Internet Hotspots

A hotspot is a physical location where people can access the internet, typically using Wi-Fi. Some internet service providers offer “hotspots” across the country. The following list of links can help you find these.

### **Borrow a Hotspot from your Local Library:**

The Public Library of Youngstown & Mahoning County

<https://www.libraryvisit.org/blog/news/need-wifi-on-the-go-check-out-a-mobile-hotspot-at-the-library/>

Columbiana Public Library

<https://www.columbiana.lib.oh.us/mobilehotspot.html>

Warren-Trumbull County Public Library

### **Locate Free Provider Hotspots:**

- Cox Communications: <https://www.cox.com/residential/internet/learn/cox-hotspots.html>
- Frontier Communications: <https://www.frontierwifi.com/location/>
- AT&T provides hotspots nationwide. To access from your AT&T smartphone or wearable device:
  - Your device should automatically connect to AT&T’s network when you’re at a Wi-Fi hotspot location
  - From a tablet or laptop
    - Note: Make sure your Wi-Fi is enabled
    - Select **att-wifi** or **attwifi** from your list of available wireless networks.
- Get access to free Spectrum Wi-Fi hotspots: <https://www.spectrum.com/wifi-hotspots>
- Xfinity Wi-Fi (covers Comcast) — the company is giving free access to everyone, including nonsubscribers, for 60 days. You can find hotspots anywhere by heading to this website: <https://hotspots.wifi.xfinity.com/>

### **Find Local Businesses that Offer Free Wifi:**

Mahoning County
