

Is this YOU?

**I have tested into RSS
1510A, English 1540 and/or
Math 1507 for fall
semester.**

One or more of my ACT
scores are: English 16-17
and/or Math 18-21.

**I want to save money and
time completing my
college degree.**

I am willing to make the
commitment to a summer
workshop to help me
become college-ready.

Jump Start

*College-Ready in
Six Weeks!*

Youngstown
STATE UNIVERSITY

Six weeks, two days a week = tuition and time saved!

What is Jump Start?

Jump Start (JS) is a non-credit, low-cost alternative to completing developmental coursework. You can brush up on your math and/or English/reading skills in order to begin college level course work this fall. Placement of RSS 1510A, English 1540 and/or Math 1507 is needed in order to participate.

YOU choose the workshop(s). Successful completion means you can change your fall registration to enroll in entry-level college course(s): English 1550 and/or the appropriate math for your major (Math 1510, 1511, 1552, 1564 or Stats 2601).

Why **JS** vs. courses in the fall?

Save MONEY!

Developmental courses average \$1,100 each plus books.

Save TIME!

Developmental courses do not count towards degree requirements, yet are needed to take English and math courses.

What does **JS** cost?

English: \$150

Math: \$180

Do both and save \$\$!

Both: \$300

*Use of instructional materials
included!*

Parking is optional.
Students can purchase a summer permit
for \$60 or pay daily (\$5).

2014 Schedule

**All workshops T/TH!
June 17th – July 24th**

**9 a.m. – Noon
English &
Reading and
Study Skills**
